Claim Objections

Claims 1-7,9-17,19,21 and 22 are objected to because of the following informalities: it is unclear whether the pharmaceutical product is actually being claimed, or if the delivery system merely includes the reservoir and connected conduits without the product. For the purposes of applying art, the examiner considers that the pharmaceutical product is actually being positively recited as an element of the apparatus. Clarification and/or appropriate correction are required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(f) he did not himself invent the subject matter sought to be patented.

Claims 1-7,9-17,19 and 21-25 are rejected under 35 U.S.C. 102(f) because the applicant did not invent the claimed subject matter.

The subject matter claimed in these claims was previously disclosed by a different inventive entity, casting doubt as to who the actual inventor of the claimed subject matter is.

Response to Arguments

Applicant's arguments filed 08-08-2005, 12-21-2005, and 05-11-2006 have been fully considered but they are not persuasive.

To overcome a 102 (f) rejection, a 1.131 or a 1.132 affidavit is required. See M.P.E.P 2137.
